SKILLS JavaScript, Python, React / Redux, Express / Sequelize, Flask / SQLAlchemy, PostgreSQL, HTML5, CSS3, Git

PROJECTS

UltraPlus (JavaScript, Python, React / Redux, Flask / SQLAlchemy, PostgreSQL, HTML5, CSS3)

[Live Site](#) | [Github](#)

A media website where users can browse anime content.

- Integrated React Player with Redux to playback video content by dispatching actions to retrieve the appropriate data for the info requested.
- Simplified persisting a user's profile state by utilizing local storage so that a user's many profiles retain their own watchlists.
- Refined flow of getting/manipulating data from many to many relationships through Flask / SQLAlchemy in order to allow users to add shows to watchlists

Unravel (JavaScript, React / Redux, Express / Sequelize, PostgreSQL, HTML5, CSS3)

[Live Site](#) | [Github](#)

A website that allows users to share their thoughts on meanings behind various song lyrics.

- Constructed a text-highlighting feature achieved through JavaScript functions and DOM manipulation.
- Dynamically rendered song lyrics pages with previously highlighted annotations by combining Redux actions with my method described in the bullet point above.
- Created comment functionality through use of Redux actions and state.

EXPERIENCE

West Coast Magnetics

Stockton, California

Purchasing Associate I

January 2021 – May 2021

- In addition to Purchasing Assistant duties, also created purchasing orders for incoming customer sales orders. Thus accelerating the process and alleviating pressure off of other members of the team.
- Assisted in overseeing incoming packing slip receipts for the California and Mexico facilities and ensuring prices and quantities were accounted for with any discrepancies being communicated/addressed with the appropriate team members/vendors.

West Coast Magnetics

Stockton, California

Purchasing Assistant

January 2020 – January 2021

- Researched and evaluated suppliers based on price, quality, availability, reputation, and history for sub-parts for custom ordered electronic assemblies. Created spreadsheets retaining such information and ensured copies were sent out to the appropriate team members including the purchasing associate in charge of buying, as well as the production manager in charge of the customer.
- Coordinated completing spreadsheets for all incoming customer quotes from sales, as well as all incoming work orders for the facility. Expedited as many work orders as possible by end of day to ensure production employees would continue to have a steady, uninterrupted workflow.

West Coast Magnetics

Stockton, California

Assembly Operator

June 2018 – January 2020

- Created parts according to work instructions and communicated with team members or management on any concerns or issues.
- Proven strengths in quickly learning new processes, technologies and machinery, as evidenced by transition from assembly operator to lead on subassembly part.

EDUCATION

App Academy

Online

Curriculum of Study in Web Development

June 2021 - November 2021

- Full-stack web development intensive program held over 24 weeks and 1000+ hours with a <3% acceptance rate.
- Topics include: Python, SQL, JavaScript, React, TDD, algorithms, OOP, REST, and programming best practices.
